GIVERIGHT

GiveRight Marketplace for NetSuite

Connecting Companies to Causes

GiveRight Marketplace for NetSuite connects companies to vetted nonprofits from around the world. With cloud technology, companies of all sizes can connect with volunteers, donors, and services. With access to thousands of nonprofits, your company can identify and select the best causes and projects that align with your company's business objectives and employee's interests.

BENEFITS

Provides Access to Thousands of Charities
GiveRight brings together both sides of the CSR relationship. Increasing the available resource pool for nonprofits is key to accomplishing new missions, while companies interested in expanding their social impact may not know where to start. The GiveRight Marketplace brings everyone together so matches can be made, leveraging GuideStar's nonprofit repository.

Verifies NonProfits
GiveRight ensures all nonprofits available for searching are eligible to receive tax-deductible donations and are in good standing with the IRS. Many of the nonprofits already work with other NetSuite customers, and some are recipients of NetSuite's SuiteDonation program.

Finds Aligned NonProfits
Companies can search and choose which causes and projects align with their overall mission. Nonprofits can also find volunteers from businesses that support them. A multitude of missions are supported through combinations of monetary donations, services, and volunteerism.

Delivers Actionable Analytics
Through the GiveRight portal, nonprofits can review key financial reporting data such as volunteer hours, pro bono services and donations.

GIVERIGHT

FEATURES

Dynamic Search
CSR Directors can search a library of thousands of registered nonprofits with a variety of criteria. Search results of multiple organizations can be imported into your NetSuite account at one time and synchronized with GiveRight's marketplace.
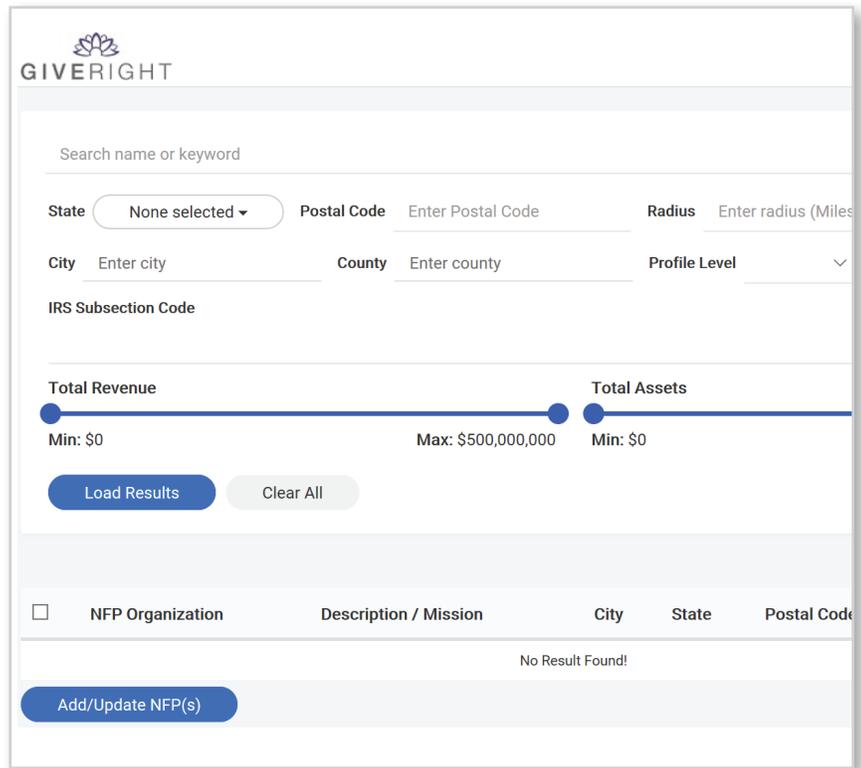

Charity Evaluation
GiveRight provides in-depth information and evaluation criteria on charities before engagement. Just define the level of support for specific charities such as service offerings, matching amounts, and volunteer eligibility.

Analytics
Nonprofit development managers can track aggregate statistics from a central hub account. As more NetSuite customers adopt GiveRight, multiple companies will want to volunteer with your charity; rather than logging into multiple accounts to track volunteer and donation activity, GiveRight Marketplace provides a portal where you can centralize reporting.

Event Promotion
Nonprofit development managers can promote their events to multiple companies and organizations to increase the potential volunteer pool.

GiveRight is powered by two industry leading platforms:

ORACLE®
NetSuite

NetSuite offers worldwide, secure, fault-tolerant, cloud-based services. GiveRight has implemented a unique set of applications which centralizes a repository of non-profits and organizations.

GUIDESTAR

GuideStar provides the most comprehensive database of non-profit organizations -- a listing of charities of all types, sizes, and locations. GiveRight has integrated this data into the GiveRight Marketplace to make easy, accessible connections.

Enabling Organizations of All Sizes to Reach Their Full Potential Through Corporate Social Responsibility
